### Keeping The Stomach Healthful

"So you too have been forced to live on crackers and milk and other equally uninteresting and joyless diets." How often has this remark been addressed to you?

Harrington abuse, every one should be able to eat what he likes in reasonable quantity, without suffering. The facts, however, are that nearly every one is limiting himself, and trying to temper the quantity and kind of foods eaten just to pamper a delicate stomach.

Stomach health depends upon a normal supply of nervous energy. The chiropractor finds the alignment of joints of the spine disturbed at what is known as "stomach place" in every case of stomach disease. When a chiropractic spinal adjustment accurately restores the alignment at "stomach place" digestion once more becomes vigorous and effective.
